

## MEDICARE AGREEMENT

---

I understand the following regarding Medicare's coverage for physical therapy services:

- Medicare does NOT have a Cap for Outpatient Physical Therapy services for 2024. Coverage is based on medical necessity.
- The Medicare deductible for 2024 is \$240.00; this is patient responsibility.
- Once a treatment amount of \$2330.00 has been met, Medicare will require additional documentation from the provider(s) to notate medical necessity.
- Medicare requires that the patient be under the direction of a physician and have a valid plan of care (physician's order) on file.
- Biomechanix Physical Therapy will follow and bill according to Medicare guidelines.
